Github: https://github.com/lawliar **Email:** charley.ashbringer@gmail.com
Personal Website: https://lawliar.github.io
Summary: I did research in automated testing/bug-finding for Linux and embedded systems, specializing in fuzz testing and symbolic execution for low-level system software. Additionally, my industry working experience focuses on building low-level management software for cloud products (e.g., accelerators) for features like confidential computing and RAS (i.e., reliability availability serviceability).

Education

PhD of Cybersecurity, advised by Prof Engin Kirda and Prof Long Lu 2019/09 - 2024/10
Khoury College of Computer Science, Northeastern University Boston, MA, USA

M.Eng of Computer Architecture, advised by Prof Hai Jin 2016/09 - 2019/06
School of Computer Sci & Tech, Huazhong University of Sci & Tech Wuhan, China

B.Eng of Information Security, advised by Prof Deqing Zou 2012/09 - 2016/06
School of Computer Sci & Tech, Huazhong University of Sci & Tech Wuhan, China

Experience

Software Engineer 2024/12 - Now
Accelerator Security, Google Cloud Sunnyvale, CA, USA
- Integrating confidential computing into cloud accelerator products.
- Facilitating faster integration of experimental accelerators.

Research Intern 2021/05 - 2021/08
T.J. Watson Research Center, IBM Information Security Research Yorktown Heights, NY, USA
- Building infrastructure for cloud services to automatically infer the microservices' identities and establish trust.

Research Intern 2017/09 - 2018/03, 2018/09 - 2019/03
Software analytics group, Microsoft Research Asia Beijing, China
- Designing and implementing fuzz testing algorithm to detect concurrency bugs.
- Integrating deep-learning-based object detection framework into outlook's anti-phishing system.

Research Assistant 2015/07 - 2015/09
Computer Science Department, University of Hong Kong Hong Kong SAR, China
- Research paper reading and implementation about privacy-preserving genome applications.

Honors & Awards

Excellent Intern Award(Top 20%)	Microsoft Research Asia, 2019
National Scholarship	Ministry of Education of China, 2018
Excellent Intern Award(Top 20%)	Microsoft Research Asia, 2018
Graduate with honor	Huazhong University of Sci & Tech, 2016
Merit Student	Huazhong University of Sci & Tech, 2015
National Scholarship	Ministry of Education of China, 2015

Misc

Reviewership:	Transactions on Dependable and Secure Computing; Computer & Security; Journal of Systems Architecture; NDSS AE 2027;Usenix Sec AE 2026; NDSS AE 2026; Usenix Sec AE 2025; NDSS 2021 (External); CCS 2021 (External)
Programming:	C/C++;Python;
Hobbies:	Badminton and violin.
Bug Hunt:	Find 14 new undefined behaviors bugs in the Linux kernel that are either acknowledged or patched.
